

PAVITHRA S

Aspiring Full Stack / Software Developer

Tuticorin, Tamil Nadu, India | +91 93459 79638 | pavithraspavi18@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

B.E. graduate in Electronics & Communication Engineering with hands-on full-stack development experience gained through an ongoing Junior Software Developer internship, building applications with Java, Spring Boot, and React.js. Strong foundation in data structures, algorithms, and problem-solving, backed by additional project experience in Python, machine learning, and embedded systems. Quick learner who thrives in collaborative, growth-oriented development teams and is eager to contribute as a full-stack software developer.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, SQL, HTML, CSS, DSA

Frameworks & Libraries: Spring Boot, React.js, REST APIs

Databases & Tools: MySQL, Git, GitHub, VS Code.

Concepts: Full-Stack Web Development, Object-Oriented Programming, MVC Architecture

Applications: MS Word, MS Excel, MS PowerPoint

Professional Skills: Problem Solving, Critical Thinking, Team Collaboration, Communication, Adaptability

EXPERIENCE

Junior Software Developer Intern | Scope Tech Software Solutions, Madurai

Present(3 months)

- Working as part of a full-stack development team, building and maintaining web applications using Java and Spring Boot for backend services and React.js for the frontend.
- Developed and consumed RESTful APIs to connect frontend components with backend business logic and databases.
- Built responsive, reusable UI components in React.js, improving user experience across application modules.
- Gained practical, end-to-end exposure equivalent to full-stack development — spanning frontend, backend, and database layers — through real project work and mentorship.
- Collaborated with the team using Git/GitHub for version control and followed industry coding and review practices.

Machine Learning Project Trainee | Reccsar Private Limited, Madurai

Jun 2025

- Designed and developed machine learning models in Python, applying supervised learning techniques to structured datasets.
- Executed a complete ML pipeline covering data preprocessing, feature engineering, model training, and evaluation.
- Collaborated under industry mentorship to align project outcomes with real-world engineering standards.

IoT Engineering Intern | Caliber Embedded Technologies India Pvt. Ltd., Madurai

Jun 2024

- Programmed and tested microcontrollers using Arduino and ESP32, building functional embedded system prototypes.
- Integrated wireless IoT communication via the ESP32 Wi-Fi module for real-time sensor data transmission between devices.
- Gained hands-on exposure to hardware-software integration workflows in a professional industrial environment.

Python for AI — Industry Training | Reccsar Private Limited, Madurai

Sep 2024

- Completed an intensive industry-led course on Python programming fundamentals applied to AI concepts.
- Gained practical exposure to AI-oriented Python libraries and problem-solving techniques for real-world applications.

PROJECTS

Tuberculosis Detection Using Deep Learning — Python, Deep Learning, 3D U-Net, Medical Imaging

- Developed an automated TB prediction system using chest X-ray images and a gated attention-based 3D U-Net model.
- Achieved 99.96% classification accuracy, outperforming existing methods and reducing diagnostic workload.

UV-Based Food Bacteria Detector — Arduino, UV LED, Optical Filters

- Built a food-safety device using UV LEDs and optical filters to detect bacterial contamination via fluorescence analysis.
- Implemented real-time detection logic on Arduino, triggering instant contamination alerts for kitchen and food-quality use cases.
- Presented at a National-level Technical Conference and Expo; recognized for potential in smart-kitchen applications.

EDUCATION

B.E., Electronics & Communication Engineering

2022 – 2026

Sethu Institute of Technology | CGPA: 8.40

Higher Secondary Certificate (HSC)

2021 – 2022

Government Girls Higher Secondary School | Percentage: 75%

Secondary School Leaving Certificate (SSLC)

2019 – 2020

Government Girls Higher Secondary School | Percentage: 70.6%

CERTIFICATIONS & TRAINING

- Core Python — Hi-Tech Academy
- Python for Artificial Intelligence — Reccsar Private Limited (Sep 2024)
- Elite Certification — Introduction to Internet of Things — IIT/NIT via NPTEL
- Elite + Silver Certification — Introduction to Industry 4.0 & Industrial IoT — IIT/NIT via NPTEL
